Accelerated Logistics, Inc.

third-party freight logistics

third-party freight logistics

Every day, we manage relationships with a large network of carriers throughout the country. We solve complex logistics, monitor carrier performance and resolve disputes so our customers don't have to.

With a single call, our customers engage a team of dedicated professionals with broad experience including third party freight logistics, warehousing, long-haul operating and dispatching.

From origin to destination, each load is managed with personal commitment and dedication to the highest customer service.

Benefits of Using Accelerated Logistics

Single Point of Contact
By using Accelerated Logistics, you can make one phone call to place and get status on multiple orders.

Market Knowledge
Accelerated Logistics is located within the Dallas/Ft. Worth Metroplex and is familiar with the "seasonality" of freight movements in and out of Texas and the challenges that come with it.

Customized Carrier Network
Over the years, Accelerated Logistics has developed a carrier base that consistently hauls freight into Texas. This means fair rates and consistent service for full-truckload freight coming out of Texas.

Experience/References
Accelerated Logistics' staff members are trained, experienced transportation professionals. Our clients range from Fortune 500® companies to local, family run businesses.

Communications
Accelerated Logistics maintains open communications between shippers, carriers and receivers during all stages of transit.
